PREFCAE.

The Publishers have much pleasure in submitting herewith the ninth edition of their Winnipeg Directory. Great care has been taken in compiling and revising the Directory, which, we trust, will meet with the approbation of our subscribers.

The Classified Business Directory will be found more than usually complete, and shows the various professions, manufactures and trades at a glance.

The Miscellaneous Directory has been carefully revised up to date.

Thanking our patrons for their encouragement, courtesy and liberal support in the past, our endeavors will be to merit a continuation of their favor.

Yours very truly,

JAS. HENDERSON,

Compiler.

RTIFICIAL LIMBS, WITH RUBBER HANDS AND FEET.

of MARK'S PATENT. So

Thirty-five years of the most extensive experience, with the most satisfactory results of any manufacturer in the world. The confidence of the public, popularity among the crippled, and flattering commendations from a all parts of the worlds, attest the superiority of the

RUBBER HAND AND FOOT,

which possesses the quality of yielding to every essential angle of the natural, without the use of complicated hinges, joints, and contrivances, which only annoy and render expensive their daily use.

The accompanying cuts represent a young man who lost both legs by a railroad accident:

He is able to Skate (ice or roller), Ride a Bicycle, Dance, or Play Ball,

Without a cane or any assistance except his artificial limbs with rubber feet. He can perform a day's work without unusual fatigues, can go up and down stairs; in fact, can do any of the ordinaries of life without exhibiting his loss.

ARMS restore the appearance and assist greatly in the performance of labor. From our Copyright Formula, artificial limbs are made and shipped to all parts of the world without the presence of the patient, with guaranteed success.

Parties who live at a distance, or who would be inconvenienced by a journey to our place, can supply measurements on our formula, and feel the assurance that they will receive our best attention. Thousands are thus treated in Canada, Mexico, Central and South America, and Europe.

Illustrated pamphlet of 160 pages, containing over 300 testimonials and wright formula for taking measurement, sent free to all.

| The system provides for the free education of | | | | |

The system provides for the free education of children, from the ages of five to sixteen years. These provisions embrace schools for primary education, established in every part of the Province, where a settlement of ten or more children of school age within a radius of three miles are found; also Collegiate departments connected with the primary, at Winnipeg and Brandon, which affords students the preparation necessary for entrance into the University and for teachers' certificates. No settler, therefore, is compelled to send his children out of the Province in order to complete their preparation for professional life, or to secure them any educational advantage to be obtained in the eastern provinces.

WINNIPEC

Canadian Pacific Railway's Telegraph.

C. R. HOSMER. Manager Telegraphs, MONTREAL.

B. S. JENKINS, Supt. Western Division, WINNIPEG

This is the only Company having direct communication: through CANADIAN TERRITORY with all points in Eastern Canada, the Province of Manitoba, the Northwest Territories. and British Columbia.

The splendid new wires of this Company of the heaviest guage yet strung admit of the working of direct circuits with MONTREAL, OTTAWA and TORONTO in the East, and VAN COUVER, VICTORIA, and SAN FRANCISCO in the West, thus avoiding the repetitions and consequent delays which occur on other Companies' lines.

The Company's UNITED STATES connections afford the most direct route and at lowest rates to all points in the United States.

Direct wire connection is had with the Cable landing office of the Mackay-Bennett Ocean Cables which is undoubtedly the best medium for Cable communication with GREAT BAITAIN. FRANCE, GERMANY, and all parts of the WORLD.
